

PRAISES:

- Our kids' growth
- New office location in Costa Rica
- Faithful supporters
- Key contacts
- New staff
- Projects running

REQUESTS:

- Funds for Projects
- Supporters for our ministry
- Human Resources
- Family holistic health

2009 happenings in short words...

Each year we spend time praying, dreaming, planning and executing what we believe our Lord leads us to do.

2009 has not been an exception. We had the privilege of using the resources (human, knowledge, infrastructure, money, etc.) provided by God to bring glory to Him by serving individuals, communities and organizations in Latin America and the Caribbean.

The very poor and needy country of Haiti has been the focus of one of our projects where we are partnering with a well-known Bible seminary in the city of Port-of-Prince, producing 12 Bible courses in both the Creole and French languages. When the production of these courses is finished, in middle 2010, more pastors and leaders in isolated areas of Haiti will be able to receive this high quality training to continue nurturing the body of Christ.

Coming back to Costa Rica, we have been partnering with Family Life ministry, networking pastors, leaders, and churches in this country of 4 million people, to bring the hope that only God can bring to the families in the middle of several attacks from the

enemy that couples, youth, and society are facing. We are leading five couples who are touching hundreds of parents and youth through seminars, workshops, and teaching. We had 8 big events this year touching directly at least 150 couples and 100 singles.

Another unique opportunity is with Pro-META seminary. They are teaching a Masters degree program in Theology, 100% online and 100% in Spanish. We have been providing technology and support for the last five years. They have students now in 19 countries, making a difference and producing transformation all around the region.

A lot of universities and organizations working in education recognize the relevance and power of the usage of technology all around the world. Those organizations, both in the formal and non-formal side of education, are facing several barriers while transitioning from traditional education towards distance education. Some of those institutions are either resigned to that possibility or struggling in the try. We have the privilege of serving them in our region, producing high quality courses and resources in the areas of education and technology to help them to overcome the barriers they are facing.

Continue on the next page...

“The Story of the Plan of God” English and Spanish video has been one of our more ambitious projects. We are creating a set of videos, 10 hours in duration teaching the whole Story from Genesis to Revelation. The final product will be available online and offline by thousands of pastors in English, Spanish, French and Portuguese.

The digital gap in some countries is so big that the resources God has given us can really transform lives and communities. We received the invitation of a university in Leon, Nicaragua, a very poor and needy area. We provided training to 10 professors in topics related to education and technology. This particular university is teaching to future engineers, educators, etc.

Besides other projects known by those of you who usually receive our prayer letters, I (Mauricio) have been invited this year to be one of the elders in our church, the president of the board of directors of a regional seminary, and a member of the board of directors of a Christian organization who works in Costa Rica, ministering to the Anglo youth community (MKs and English speakers). What a privilege to continue serving our Lord.

“And they sang a new song, saying, ‘Thou art worthy to take the book, and to open the seals thereof: for thou wast slain, and hast redeemed us to God by thy blood out of every kindred, and tongue, and people, and nation.’”
 Revelation 5:9

What about 2010?

We are very grateful with our Lord because our family is healthy in a holistic way. Our marriage of 16 years has been blessed by Him in many ways. Our children love the Lord and love us. They have been working hard this year being an example at church, school, and home. What a joy to finish this year praising the Lord for who He is and for what He has

done, in and through us.

For 2010 we already have a long list of projects, already in different stages of the process.

We will be focused on the six categories of our ministry plan:

- Team Development
- Working with Formal Institutions
- Learning Centers Church Based Training

- Alliances Built
- Infrastructure and Capacity Building
- Increasing Sustainability.

We want to encourage you strongly to consider praying about supporting our ministry both in prayer and financially.

Thank God because you have provided.

Merry Christmas!
